IMMEDIATE RELEASE

Taskmaster supports Data and Document Capture for DocuWare

Datacap Announces Seamless Product Integration with DocuWare

Weybridge/London, April 25, 2006 – Datacap Inc. announced today that it has completed integration with DocuWare, a leading global document management solution. The Datacap Taskmaster DocuWare integration provides DocuWare users with another method of automating and importing index information into the DocuWare document management system.

With Datacap Taskmaster integration, DocuWare users can now extend the value of their imaging investment with adaptable automated indexing and forms processing. DocuWare users will also benefit from Taskmaster's fully browser-based solution for distributed scanning, indexing and administration.

"Datacap is pleased to offer DocuWare customers and resellers the benefits of a tightly integrated capture and document management solution," said Datacap CEO Scott Blau. "DocuWare is widely known for its ease of use, simple administration, and absolute security. With Datacap Taskmaster handling the efficient input of images and data, organizations will get even more value out of their DocuWare investment."

“Datacap’s track record of award winning innovation ensures that DocuWare customers will have a full-featured end to end solution,” said Stefan Schindler, Director DocuWare Ltd.

“With Datacap’s Taskmaster as the front-end capturing solution for DocuWare, users will gain significant value and benefits in productivity and efficiencies. The integration between our two products is a clear win-win for the user.”

About Datacap

Since 1988, Datacap Inc. has provided leading document capture and forms processing software solutions to organizations worldwide. Datacap Taskmaster software efficiently transforms paper into information, reducing data entry costs and improving information accuracy. A client/server, rules-based document capture workflow platform, Taskmaster provides highly flexible solutions for both image indexing and data entry automation. Taskmaster also enables scanning, indexing and administration from a browser and integrates with all leading document management solutions. <http://www.datacap.com/>

DocuWare – The Company

Founded in 1988, DocuWare is a pioneer in electronic filing. Today the company ranks among the worldwide leading software companies for integrated document management solutions with more than 5,500 installations and tens of thousands of users in over 50 countries. The software is distributed by over 400 resellers creating a worldwide independent authorized reseller network of over 1000 DocuWare experts.

DocuWare AG is based in Germering near Munich, Germany. In 2001, DocuWare Corporation, a wholly owned subsidiary was founded in New York, to support the North, Central and South American markets. Effective from 4/1/2005, DocuWare Ltd, a wholly owned subsidiary was founded in London, to support the British market.

DocuWare – Software for Integrated Document Management

The product, DocuWare, is modular designed software offering a wide range of standard features in the core edition. Regardless of format or source, it organizes any type of document in a central document pool – be they records, letters, drawings, files or e-mails. It allows users to scan, index, transmit, display, edit and print, fax or e-mail this wide variety of documents.

A wide range of customizable DocuWare add-on modules equip DocuWare for intranet and Internet, automatic indexing and COLD applications. Numerous interfaces exist for software applications, such as ERP systems (a certified SAP interface,) Groupware, (like Exchange or Lotus Notes/Domino,) or portals (like Microsoft SharePoint,) or workflow programs (e.g., Ultimus.) Easy installation and operation as well as exceptionally low Total Cost of Ownership (TCO) characterize DocuWare solutions. DocuWare software is available in 13 languages.
